FAIR ACTIVITY SHOWN

STOCKS MADE SMALL GAINS IN A MORE LIVELY MARKET.

Shipments of Gold About at an End-Movements in Foreign Exchange-Condition of Local Trade.

At New York yesterday money on call was steady at 1%@1% per cent; last loan, 11/2 per cent.

Prime mercantile paper, 4 per cent. Sterling exchange was steady, with actual business in bankers' bills at \$4.87\20 4.87% for demand and \$4.84@4.84% for sixty days; posted rates, \$4.85@4.85\\ and \$4.88\\@

4.89; commercial bills, \$4.831/4@4.831/2. Bar silver was 61c. Mexican dollars, 481/2c; silver certificates, 611/2/0621/2c. Silver bars

sold at 28 1-16d in the London market. Yesterday's stock market was, in many respects, a counterpart of the early trad ing of the week. There was, however, more uniformity to the advancing tendency, exceptions being limited to only a few stocks. A distinctive broadening to the dealings aroused optimism in some quarters as to early participation in the market by the public. Some of the commission houses reported increased orders, and stress was laid on the prominence of the dividendpaying railroads in the rise. As an offset the bears dwelt on the depletion of New York city bank reserves, consequent on the gold exports and the usual contraction in general business in presidential election season. While the bank statement on Saturday will have to reflect upwards of \$11,-000,000 gold shipped, it is expected that the loss in the surplus reserves of the banks will be largely offset by the receipts of gold from Pacific coast points, interior currency movement and gains from the subtreasury. The latter institution will have to disburse to the banks, later in the week. some \$20,000,000 through the redemption of the old government twos. Money rates here yesterday continued easy, but an easier tendency was noted in discounts on London, which caused long sterling bills to harden here, and the posted figures were marked up a half cent. It is stated that turther gold shipments at a profit are impossible at current rates for demand bills. \$4.8714, the Bank of England having withdrawn its interest allowance for gold in transit The stock market in detail showed strength in many quarters, with the tendency for special stocks influenced by rumors. For example, New Jersey Central jumped over 5 points mixed, 35%; Ro. 2 white, 24%; No. 3 white, 23%; No. 3 white, 2 the property and favorable developments in the anthracite coal trade. Other coal stocks sympathized, but the late reaction reduced their gains to fractions, outside of Delaware & Hudson, which closed 21/4 nigher. In Atchison, positive assertions for and against the payment of a dividend on the common stock were heard which lent interest to the movement in the shares. Brooklyn Transit spurted up 2 points on the reputed favorable character of its pending annual statement, but the

and the market gave way all around, ending under pressure. More business was transacted in railroad bonds that for some time, and there was a decided upward tendency for some Issues, particularly Atchison adjustments. St. Louis Southwestern twos and Wabash debentures. Total sales at par value were \$910,000. United States new fours and fives advanced ¼ in the bid price. llowing are the day's share sales and

announcement late in the day that the re-port would not be published for several

weeks wiped out pretty much all that rise.

Operations in the steel group were within

rather narrow limits and they closed

somewhat off on bear pressure, due to an-

other decline in warrants. Railroad stocks.

in the granger group, received good sup-

port, but they suffered in common with

the general list of the selling movement

toward the close. At intervals individual

groups were singled out for an advance

and as the room traders generally followed

what appeared to be good buying, other

stocks received less attention and usually

lost ground. Sugar, People's Gas and

Consolidated Gas were conspicuous fea-

tures in the market at different times, but

in only the latter was there any material

effect left of the demand, a net gain of

31/2 points being established. Sentiment

toward American railroads, and London

took almost 10,000 shares of stocks. Profit-

taking was indulged in in the late dealings

Wheat Weak and Lower, Oats Higher -Small Advance in Lard, Other Provisions at a Decline.

CHICAGO, Aug. 15 .- Fear of a squeeze made corn the active speculative center in the Board of Trade to-day, September closing %c over yesterday. Wheat was dull and closed 1/61/4c lower. Oats closed 1/61/4c higher and provisions a shade higher for lard to 75010c down for ribs.

Anxiety of corn shorts made that market an active one from the start. Small stocks and a large shortage for next month's delivery, with farmers' reserves at a low ebb, were caused by a general desire on the part of September shorts to cover. Cables, weather, etc., cut but little ice. September opened at 37%@38c and in the midst of considerable excitement advanced to 391/2c. The bulge brought out considerable long stuff and as the fears of shorts gradually subsided, September dropped back to 381/6/38%c, at which the market closed, compared with the previous close at 37%c. The cash demand was tame because of the advance, only 200,000 bu being worked. Receipts were 141 cars and country acceptances small. Kansas reported hot and dry weather and sent in advices of damages at the hands of the signal serv-

Wheat was quiet and rather weak. The pit at times was half deserted, traders giving their attention to corn. Liverpool was steady, but nothing more, receipts were heavy and the weather in the Northwest still dry and cool. The advices from the Southwest pointed to the probable early lessening of the movement, quite independent of Secretary Wilson's prediction of dollar wheat, is causing farmers to hold on for a rise. September opened at 74% to 74% a74%c, advanced in sympathy with corn to 54c and then reacted, closing easy, %@4c under yesterday at 74%c. Clearances at the seaboard, in wheat and flour, were equal to 510,000 bu. New York reported seven last year. Minneapolis and Duluth reported 213 cars, against 246 last week and 184 a year ago. Local receipts were 308 cars, 23 of contract grade. Oats clung to the skirts of the corn market and in a quiet way managed to advance slightly. September sold between 21%c and 22%c, closing 40%c up at 22c. Receipts were 349 cars. Considerable buying was credited to a local packing com-

Provisions were quiet, firm for lard, but easy for pork and ribs. Covering by shippers against cash sales of lard gave that product comparative strength. Liverpool nuoted another 6d rise in Cumberland-cut bacon. September pork sold between \$11.60 @11.621/2 and \$11.55 and closed 5c lower at \$11.55; September lard between \$6.60 and 6.67%, closing a shade up at \$6.65, and September ribs between \$6.95 and \$7.871/4@6.90 with the close 71/2010c down at \$6.871/206.90. Estimated receipts to-morrow: Wheat, 350 cars; corn, 115 cars; oats, 345 cars; hogs, 22,000 head.

BOSTON, Aug. 15.-The American Wool and Cotton Reporter will say to-morrow of the wool trade: To all outward appearances the market is considerably quieter than it was a week ago. It is intimated in certain quarters that there has been more actual buying during the last week than appeared on the surface, a number of persons being engaged in picking up wool in the quietest manner possible. According to most accounts, however, the situation could not be much duller than it has been. The manufacturers have apparently been not much in evi-dence. The mills appear to be governing their purchases of wool entirely in accordance with their present actual needs. Prices are lbs domestic and 25,000 lbs foreign, making a to tal of 2,237,800 lbs, against a total of 3,348,600 lb for the previous week, and a total of 5,366,000 ibs for the corresponding week last year. The sales since Jan. 1 amount to 83,137,500 lbs, against 175,873,000 lbs for the corresponding time last

LIVE STOCK QUOTATIONS

CATTLE WERE QUIET AND WEAK AND PRICES A SHADE LOWER.

Average Was About Steady-Sheep Fairly Active and Weak.

UNION STOCKYARDS, INDIANAPOLIS, Aug. 15.-Cattle-Receipts, 1,000; shipments small. With continued liberal receipts and lower markets elsewhere the cattle market here this morning opened with buyers bidding lower, and it was soon evident that salesmen would have to make concessions to effect a clearance. They were very slow, however, in accepting any decline, and final sales show that they received more satisfactory prices than early bids indicated they would. For the most part, however, the market was considered 10c lower than yesterday, and this is especially true regarding heavy export steers. A good clearance was finally made, and

there was not much complaint here of the

Horses.

UNION STOCKYARDS, INDIANAPOLIS. Aug. 15.-Another small supply of horses were offered in the regular auction sale to-day, the receipts being about 100 head, "Keeps Going" against 225 the same time last week, and 300 the corresponding time a year ago. There was no difference in the quality or class of horses represented, compared with the initial sale of the week, and notwithstanding there were a few more buyers, the bidding continued very sluggish, and it was difficult to negotiate sales at barely steady prices, compared with those current week ago. A good clearance was finally made, and the last sales were steady at opening prices.
